YouthBuild’s goal is to help young people achieve education goals, learn new skills, and become successful community members.

What is YouthBuild?
YouthBuild is for young people ages 16 to 24 that have struggled or dropped out of school. The program helps young people receive education and training in a career track.

The YouthBuild program has two phases. In Phase I, each student will work on High School Equivalency (HSE) prep or college prep, and participate in construction training. Participants earn a stipend while in the program. Eligible students could then take part in a second career track.

In Phase II, YouthBuild participants receive support for up to a year to help them find a job, go to college, enlist in the military, or pursue additional job training.
