About CEO

CEO provides services that empower people to develop independence in all life areas. CEO gives people the tools they need to build financial stability and lead healthier, happier lives. Our programs work with individuals, families and the larger community to improve quality of life by meeting social, emotional, financial and educational needs.

CEO's programs are designed to be stepping stones to long-term success. They focus on education, skill building, and connecting people to resources they need. Our goal is to break the cycle of poverty by targeting poverty at its root causes – removing barriers and supporting change.
